Funeral of His Excellency Governor Seymour.

The last sad rites were paid to the remains of Governor Seymour on Wednesday, and, freed from the toils and vexations of life, the body of the late chief dignitary of the Colony now reposes beneath the consecrated sward of the Naval Cemetery. The funeral was largely attended. From the city and country for miles around, there was an in-pouring of people to the quiet little burg of Esquimalt, to join in a mark of respect to the memory of the man who until a few days ago seemed to hold the destinies of the Colony in his hand.

The remains lay in state at the Naval Hospital in the Ward previously described by us, until 4 o'clock on Wednesday. The coffin was viewed by hundreds who gathered early in the day; but before the throng had become dense, the lid was removed and Mrs. Seymour, supported by Doctor and Mrs. Hayman, gazed for the last time upon the features of the dead. After the departure of Mrs. Seymour and attendants the coffin was closed and the public were admitted to the room. The interest manifested was very great. The decorations which were designed and executed by Mr. Lowndes were of simple yet beautiful conception. The floral offerings which were many, tended to relieve the deep sombre hangings of crape with which the walls were hung, and made the air redolent with perfume. Upon the coffin lid appeared in silver letters—

FREDERICK SEYMOUR.

And nothing more. The official hat and sword lay upon the coffin, surrounded by wreaths and bouquets of bright-hued flowers. Near the head, some kind hand had placed a small bouquet of violets—the lowliest yet loveliest of Flora's gifts—a silent and modest yet eloquent and touching tribute of friendship.

Shortly before 4 o'clock the Enterprise arrived from Victoria with several hundred passengers representing the Victoria Volunteer Corps, the firemen and the general public, accompanied by the Volunteer Band under leader Haynes.

Precisely at 4 o'clock the coffin was removed from the Ward and placed upon a gun-carriage drawn by sailors and escorted by a guard of honor of 50 marines from H. M. S. Satellite, under Lieut. Wright. Seventeen minutes guns were fired from the Satellite as the cortege moved off, the band playing the Dead March. The pall bearers were Sir James Douglas, Chief Justice Needham and Captains Edye and Mist. The mourners were Mr. D. C. Maunsell, late Private Secretary to the Governor, Mr. A. Lowndes, Hon. H. M. Ball and Hon. A. T. Bushby, Dr. Comrie, R. N., followed as medical attendant. The Executive and Legislative Councils, Navy, Civil Servants, Fire Brigade, Victoria Rifle Volunteers, and the public were largely represented in the line. The clergy were represented by Rev. J. Somerville, Presbyterian Church; Rev. Mr. Russ, Wesleyan Methodist Mission; and Rev. P. Kiley, L. Haupp's, and Oh. Seghers of the Catholic Mission. W. J. Armstrong, Esq., J. P. Town Councilor of New Westminster, represented that town—Mayor Holbrook joining with the Legislative Councilors. Mr. Frank G. Richards represented the Fire Department of New Westminster. The distance from the Hospital to the Cemetery is about one-fourth of a mile, along a winding lane shaded on either side by thick groves of trees. As the procession moved towards the Cemetery, the declining sun bathed in a flood of gold the scene—the solemn music of the band and the slow, measured tread of the escort presenting a picture which must have charmed while it touched every heart.

"The bayonets earthward were turning,
And the drum's muffled beat rolled along;
But he heard not the sound of the mourning,
Nor awoke to the bugle's shrill call."

The melancholy cortege reached the Cemetery at twenty minutes past four and the corpse was received at the entrance by Deat. Criddle, Rev. Archdeacon Reeco, Rev. Dr. Hayman, Rev. Mr. Antridge (Chaplain of H. M. S. Satellite), Revs. Messrs. Jenne, Gribbell, Oave and Owens. The service was read by Rev. Dr. Hayman, the choir chanting with great effect Psalm XXXIX. The Chapel was hung with crape, and the corpse rested beneath a canopy of black cloth. The chancel was divided by a black curtain on which was inscribed a large white cross and "I. H. S." in Roman characters. Behind this curtain sat Mrs. Seymour, Mrs. Dr. Hayman and Mrs. Ool Foster. After the service at the Chapel, the corpse was raised upon the shoulders of the sailors and borne to the vault, which had been prepared for the reception of the remains. Mrs. Seymour, leaning on the arm of Hon. A. T. Bushby, and accompanied by the ladies named, followed the corpse to the vault, where the customary prayers were read by the Dean, and the Archdeacon gave out the 163d hymn,

"When our friends are bowed with woe,
When the bitter tears o'flow;
When we mourn the lost, the dead,
Then, Son of Mary, hear."

Which was sung by the vast assemblage.

During the ceremony Mrs. Seymour was greatly affected—as indeed, were all present—and after the coffin had been lowered to the vault there to remain until the "last trump shall summon the quick and the dead" and the escort had fired three rounds from their Sniders over the corpse the procession reformed and returned at a quick-step to the hospital grounds wherit was dismissed.

The arrangements for the funeral, which were under the auspices of Mr. Richard Lewis, were conducted with the greatest decorum. The vault, a substantial stone structure, was constructed by Messrs. Kinsman & Styles, of this City.

The Death of the Governor at New Westminster.

The news of the death of His Excellency the Governor was received at New Westminster with sincere manifestations of popular grief. Mayor Holbrook convened the City Council on Monday evening, when an address of condolence with Mrs. Seymour was passed, and the Town Hall ordered to be draped in mourning for thirty days. The Hyack Fire Company also held a meeting the same evening and passed resolutions bearing upon the sad event and directing that the Hall be draped in mourning. Mayor Holbrook and Councilor W. J. Armstrong were appointed a deputation to present the address, which was done yesterday afternoon. Following are the addresses:

New Westminster, June 15, 1869.
Mrs. Seymour, Madam—We the undersigned members of the Municipal Council of New Westminster, have heard with deep regret and heartfelt sorrow of the loss which you have sustained by the death of your esteemed husband.

His Excellency's death cannot but be felt as a serious loss to the whole Colony, but to none more than this community amongst whom he had resided for so long a period, and who had so many opportunities of appreciating his private as well as public character.

We trust that God in his infinite mercy will enable you to bear the burden of sorrow with which it has pleased him to visit you. With the assurance of our sincerest sympathy,

We remain, Madam,
your obedient servants,

Henry Holbrook, President.
W. J. Armstrong, Esq., J. P. Town Councilor.
James Cunningham, Esq., J. P. Town Councilor.
C. E. Laidner, Esq., J. P. Town Councilor.
H. W. Smith, Esq., J. P. Town Councilor.
Henry V. Edmonds, Town Clerk.

New Westminster, June 15, 1869.

Mrs. Seymour, Madam—We the undersigned officers of the Fire Department of New Westminster, on behalf of all the members, do respectfully offer our sincere condolence for the great loss you have sustained in the sudden death of your beloved husband, His Excellency Governor Seymour.

In the death of His Excellency the Fire Company of this City have lost a warm and attached friend, for all had learned to appreciate his private as well as his public worth; our loss is nothing to yours. We pray that God in his infinite mercy may give you strength to bear the great sorrow with which you are afflicted.

William Johnson, Chief Engineer & Acct. Capt.
David Whitlow, Assistant Engineer.
Geo. C. Carlson, 1st Lieut.
Thos. Walsh, 2d Lieut.
John S. Clute, Treasurer.
H. Burr, Secretary.

FROM WHITE PINE.—Mr. I. B. Nason, [from Meacham and Nason], of William Creek, who returned on the G. S. Wright, gives a gloomy picture of matters at White Pine. He saw there John Adair, Hilson, R. Davis, W. Turner, W. E. Boone, Gillette, Major Downie and many other Carlottes. All spoke badly of the country except Mr. Anair, who thought he had a good thing. Not a single Cariboo-ite so far as our informant saw, had made a dollar. They have a queer law there. A man can locate a claim and hold it for a two weeks without doing a stroke of work; and if he performs two days' work he can hold it without touching it for a year. Eight men representing eight companies of San Francisco capitalists hold an entire district in this way and are sitting down awaiting the results of assays and experiments. Our informant was at the mines six weeks, during which time the half of the miners left for home, greatly disappointed.

The appointment of Mr. Musgrave as Governor in place of Mr. Seymour, appears to have been decided upon at the Colonial Office some months ago, and it seems that the late Mr. Seymour was aware of the intention. Mr. Musgrave having written out respecting certain articles belonging to Mr. Seymour which he (Mr. Musgrave) thought he would require here, Mr. Seymour, we understand, designed returning in November next, on leave of absence. He did not intend to return, and as by that time he would have earned his pension, he would undoubtedly have retired from the Colonial Service. Fate willed, however, otherwise. The Colonial Office appears to have given Mr. Musgrave brief notice; and his promptitude in responding to the call is one of the best recommendations the practical people of this Colony could have of his fitness for the position.

THE STANDARD LIFE ASSURANCE COMPANY—Prudent heads of families now adopt the most economical way of making a secure provision for their children by life assurance. Of necessity the first considerations are the solvency and respectability of the office in which to insure. These considerations are fully satisfied in the above named corporation, and their successful progress, with proximate advantages in which all will participate, should make their policies extremely popular.

MAMMOTH CUCUMBERS.—Mr. F. Bushell sent us down on Wednesday a mammoth cucumber, grown in his garden, measuring 16 inches in length and 6½ inches in circumference. "As cool as a cucumber" has passed into a proverb. Perhaps Mr. Bushell's cucumbers have something to do with the agreeable change in the weather.

Funeral of Commander the Honorable Horace Douglas Lascelles, R. N.

The funeral of the gentleman whose name heads this paragraph took place yesterday afternoon from the Naval Hospital at Esquimalt. The body lay in state in the same room to which Governor Seymour's remains were carried after coming ashore, and were visited during the day by the fellow-officers of the deceased and many citizens. At three o'clock a detachment of Marines from H. M. S. Satellite, under Lieut. Wright, was drawn up as an escort, and the body placed upon a gun-carriage. The following gentlemen acted as pall-bearers: Capt. Mist, H. M. S. Sparrowhawk; Lieut. Comdg. Larcom, H. M. gunboat Forward; Lieut. Osborn, H. M. S. Satellite; Hon. J. S. Holmcken; Hon. D. B. Ring, and P. Wakeman, Esq., J. J. Southgate, Esq., a devoted friend of the deceased, walked as chief mourner, and Capt. Edye, R. N., and the medical attendants—Dr. Comrie, of H. M. S. Sparrowhawk, and Dr. Trimble, Mayor of Victoria—together with many naval officers and citizens followed. Among the gentlemen residents in the procession we observed Roderick Finlayson, Chief Factor of the H. B. Co.; James Gillon, Manager of the Bank of British North America; George Peakes, Esq., Capt. Edward Stamp, J. C. Nicholson, Esq., Robt. Bishop, Esq., Dr. Tuzz, C. W. Wallace, Esq., R. C. Nuttall, Esq., A. J. Laegley, Esq., R. Burnaby, Esq., James Lowe, Esq., Lumley Franklin, Esq., Kenneth McKenzie, Esq., Thomas Harris, Esq., W. S. Green, Esq., J. S. Spark, Esq., Naval Storekeeper, Esquimalt station, and many others. The procession passed up the road to the cemetery, where the body was met by Rev. Mr. Antridge, Chaplain of H. M. S. Satellite, and Rev. Frank Gribbell, Rector of St. Paul's Esquimalt, and conducted into the Chapel, where the Church of England burial service was read. The coffin was then carried to the vault, and after the usual ceremony had been gone through, and three volleys fired over the grave, the assemblage slowly departed. Mr. Lascelles was a young officer of much promise, and combined with many other good qualities an amiability of disposition which endeared him to all who knew him, and his loss is much regretted in this community. The remains of Capt. Lascelles were placed in the vault to await orders from home respecting final disposition.

Will of Governor Seymour.

The will of his late Excellency was opened and read yesterday morning. It bequeaths a certain sum to his brother, Major General Seymour, esquire to the Prince of Wales, and all the remainder—with the exception of a legacy of £400 to Mr. Lowndes—to Mrs. Seymour. Hon. A. T. Bushby is the executor.

LOCAL BREVITIES.—The steamer S. Wright came in on Wednesday afternoon from Portland, Oregon, with 20 passengers and a splendid freight. Frank Campbell, proined his ankle badly in jumping on board the Enterprise on Wednesday afternoon. The newspapers will miss him. The petition for the pardon of Henry White, will be presented to the Administrator of the Government on Monday. It would be a gracious act if Mr. Hankin were to grant the prayer. The Gussie Tellair returned from the Sound yesterday afternoon and will sail for Portland at daylight this morning.

AMERICAN SUBMERGED PUMP.—At Brodriks wharf has been erected one of the new American Submerged Pumps, for which Brodriks & Co. are Colonial agents. The pump is simple in construction and so easy to work that a boy could force a stream of water a distance of fifty to seventy feet through a short hose and pipe. In case of fire, the submerged pump would be invaluable, and for garden and greenhouse purposes it is unequalled by any we have seen on sale in the colony. Another recommendation is its cheapness—one of the size on exhibition costing only fifty dollars.

YALE TREASURES.—During the week ending June 12, there were sent out from Yale for the upper country 63,000 pounds of goods. The Examiner suggests that Siwash Creek, three miles above Yale where, in 1858, much gold was found, should be tried again. Mr. T. Spence, Superintendent of Roads, has had several of the bridges and cribbing along the road thoroughly overhauled and repaired. The roads and bridges are now in first rate order for traffic.

THE H. B. Co. have on their wharf at Esquimalt a tank, capable of holding 25,000 gallons over which they intend to build a shed, and in which they propose to keep fish oil and barrel it off as required for shipment.

On the last trip down of the Lillooet, Capt. Fleming learned at Hope that excellent news had reached there from Rock Creek, by a person who had just arrived in town. The country along the Fraser is suffering for want of water.

DIRECT STEAMER.—A telegram from San Francisco announces that the steamer Active will sail for Victoria direct this evening.

The ship Isaac Jones, laden with Nanaimo coal for San Francisco, was towed down yesterday morning by the steamer Emma.

The examination into the alleged horse racing swindle will be resumed on Monday next.

Hot.—At Yale, the other day, the thermometer stood at 106° in the shade.

The Assizes are postponed till Tuesday next at eleven o'clock.

It is believed that Mrs. Seymour will depart for England in the course of a fortnight.

Owner bark Rosalia vs. B. C. & V. I. Spar & Lumber Co.

The damages were laid at \$50,000. Mr. Wood, instructed by Messrs. Drake, Jackson & Aitken for the plaintiff; Mr. McCreight and Mr. Robertson, instructed by Messrs. Peakes & Davis, for the defendant. The following special jurors were empanelled—J. Russell, foreman; Emile Satrio, A. McLean, M. W. Waitt, J. H. Turner, Thomas Wilson, G. J. Findlay, A. R. Green. Mr. Wood stated the case. Gustav Dusol is the plaintiff, and asserts that he was owner of the ship Rosalia, and maintained that, owing to the negligence of the B. C. & V. I. Spar & Lumber Company the vessel was lost. The Rosalia was formerly a Prussian bark, and was transferred to plaintiff in the early part of March, 1868. The Captain of the Rosalia engaged the steamer Isabel to tow his vessel to Burrard Inlet. The ship was loaded on March 19th, and at 6 a.m. the Isabel made fast and towed the Rosalia beyond the sands of the Fraser, where the steamer was hailed by the Fanny, a large ship. The Isabel proposed to tow the Fanny astern of the Rosalia, a vessel of only 300 tons burden, the Fanny being of 900 tons, the master of the Rosalia objected when the tow rope belonging to that vessel was cast off; the rope was a new one although joined in the middle. It required two hours to arrange the vessel, the Fanny being first, and the Rosalia astern. With the two vessels they only made 3 or 4 miles an hour, whereas with the Rosalia alone, they would have made 7 or 8. Hence, plaintiff contends that the Rosalia might have been safely in port before the storm came on. The Captain of the Isabel, (Pamphlett) wrote to Captain Endiz to say that he should hold him to his bargain. The day before the departure of the ship Pamphlett offered to let the Rosalia off for two hundred dollars if he would set the agreement aside, probably because he had agreed to tow the Fanny which was waiting outside. [The defendant admitted ownership of the Rosalia.] On his Lordship asking if any arrangement could be come to he was answered in the negative.

The evidence of Capt. E. deiza, of the Rosalia, was partially, and that of Capt. Arthur, of the Fanny, was wholly taken, when the Court adjourned until to-day at 10 o'clock, precisely. The evidence (which the crowded state of our columns prevents our giving in extenso) went to show that the tug Isabel attempted to tow both ships, and that a blow sprang up. At the command of the Captain (Pamphlett) of the tug, the Fanny cast off the Rosalia, which was astern, and subsequently the Fanny's hawser parted, both ships went ashore and were lost; the Captain of the Isabel had agreed to tow the Rosalia and subsequently picked up the Fanny and took her in tow as well.

CHICAGO, June 11.
Last night the train from New York, with the President and party on board, met with a serious accident near Annapolis Junction. The only persons injured were on the first two cars. Some of the passengers proceeding to the rear car asserted to have found the President smoking on the platform, and not aware of the extent of the danger. The President's dispatch from Washington today says, that within thirty days Governor Geary will supersede the Secretary of the Navy.

A Fortune in the Rough—A \$300,000 Diamond.

(From the Rock Island, Ill., Argus, May 24th)
A few days ago a gentleman came up the river on the steamer New Boston, who privately exhibited to the officers of that packet a diamond in the rough, which, in its unpolished state, is supposed to be worth somewhere in the vicinity of \$300,000. It is further supposed to be the second or third diamond in size in the world. It is about the size of a walnut, is perfectly transparent, and has the power of magnifying to the same extent as a first-quality glass. The lucky possessor found it at his home, in the gold mining districts of Nova Scotia, and also stated that he had found over two small ones, one of which he sold for \$12,000 in its rough state. To convince the officers of the boat, he produced files of the Nova Scotia papers containing accounts of the finding of the diamond, minute descriptions of the same, descriptions of the finder, and other evidence too indisputable to be questioned. He also showed letters from prominent New York jewelers, who had examined the prize one of which was from the house of Ball, Black & Co. He is going to Iowa to seek about landed investments, with a view of having the diamond polished, and sell it to some crowned head, if possible. For the benefit of the ladies we will state that we do not know whether he is married or not, there is no "cave" in this story.

THE LAST BIG DIAMOND.—Advices received in London from the Cape announce the finding of another diamond much larger than any yet met with in the colony. The following particulars are from a letter received by Messrs. Goodfellow & Smart, from their correspondents at Cape Town, dated 31st March. The news will reach you by this opportunity of the finding of the large diamond—one Cape "Koh-i-noor"—valued at £32,000. There is no delusion in the as in the gold fields, so you may believe implicitly. This diamond was found near the Orange River, in the diamond territory, was bought of a native doctor for 500 sheep and a few cattle, by Mr. Niekirk, a Dutchman, who again resold it to Messrs. Lillienfeld, of Hope Town, for £11,200, and it is now on the way to Algoa Bay. We need hardly say that this news, confirmed by the Civil Commissioner to our Colonial Secretary, has caused great excitement here, as there can be no doubt of the immense wealth of this diamond country. What would a systematic search effect, when over forty diamonds have now been found, chiefly by natives?

Horrible Murder on San Juan Island.

Late yesterday afternoon Mr. A. Hibbard, one of the proprietors of the San Juan Island lime kiln, was shot through the head and almost instantly killed by one of his partners, James Watts.

The dispute arose about a bed. The two men were alone in a room together, and their voices were heard raised in angry altercation for a moment before the firing.

Three or four shots were fired, the last and fatal ball, passed through Hibbard's face and into his brain. He died in ten minutes. The pistol was held so close that the powder burned the murdered man's face. Watts was seized by the kiln men and bound.

Both men are American citizens, Hibbard was from Montreal, Canada, and was well known and liked here. Watts has farmed up country and was considered respectable.

The case will be tried by the American Military authorities.

ROWLANDS' three great preparations for the hair, the complexion, and the teeth, are known in all quarters of the globe. Their famous "Macassar Oil" has been counterfeited in France, Germany, and elsewhere, but none of the spurious preparations have possessed the extraordinary properties of the genuine article. Rowland's "Kalydor" for the complexion has retained its prominent place among fashionable cosmetics notwithstanding the numerous new articles introduced for the complexion. The "Oleto" for the teeth is highly prized by thousands who have used no other dentifrice for years. Rowland's great success during the past two generations, and their present prominent position as manufacturers, may justly be attributed to the excellent character of their articles, and to the fact that unlike many other proprietors of established fame, they do not allow their cosmetics to deteriorate in quality.
